Brief explanation regarding the fee structure:

The below fees listed you will find are generally lower than many similarly trained professionals. Reasons for the reduced fees include lack of overhead related to administrative, billing, labor and facility costs, therefore passing on savings to you the client!

Initial contact:

This is a brief discussion of your concern(s), scheduling of assessment and/or therapy appointment(s). Questions as to if this service is right for you are appropriate as well as questions concerning counselor's background, training, and general philosophy. This is not a therapeutic session or appropriate for crisis response. **FREE**

Assessment:

This is after the initial appointment is scheduled and we outline your concerns, review patterns and together create a plan to improve your personal or emotional situation. This generally takes up to 90 minutes and can be accomplished in any manner you wish. **\$150.00 per assessment (60-90 minutes)**

Skype/Instant Messaging:

This will be conducted either through chat, audio or visual communication and costs are dependent upon time spent in therapy. Prior to your session counselor will review the minutes of our last session and prepare for follow-up. **Skype 30 min :\$60 per session. Skype 50min : \$100 per session.**

Email:

This is when you send an email to inquire as to what should be done in a given situation or circumstance AFTER you are enrolled as a client. This is in ADDITION to our regularly scheduled communication. **\$25.00 per email**

William B. Hazel III
MSW, ACSW, LCSW, LADC

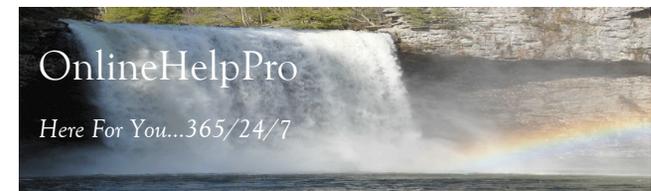

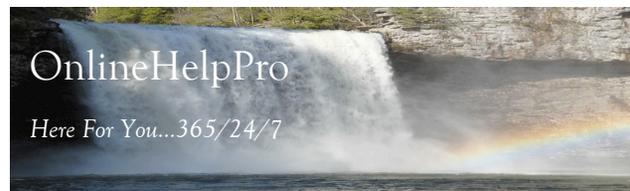

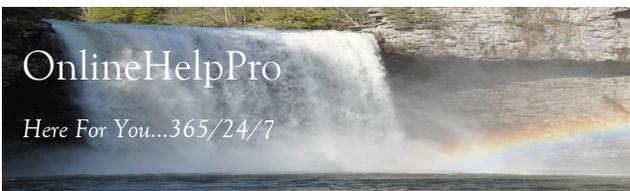

I earned my MSW from Southern Connecticut State University in 2004. I specialized in Community Mental Health and Substance Abuse. I also hold a MA in Criminal Justice from John Jay College of Criminal Justice, City University of New York It was then that I began to appreciate the invaluable work done by forensic social workers.

For the past 15 years I have worked in clinical as well as case management roles in community mental health, child welfare services (both as a contracted provider in New York City as well as a child protective services worker, children services consultant and supervisor in the greater Bridgeport Area). And substance abuse rehabilitation. I have worked side by side with combat veterans on overseas assignment and I believe that I can use the tools of knowledge, experience and clinical skill to help you overcome, improvise and adapt your current hurdles in life.

Together we will review what has been tried, what no longer works for you and devise a new blueprint for your new found success! Let me be YOUR Change Agent!!!!

Common challenges in which I can be especially helpful are:

1. Addictive disorders
2. Anger management
3. Post Traumatic Stress Disorder
4. Mood Disorders

<http://www.onlinehelp.pro/>

<http://www.onlinehelp.pro/>

<http://www.onlinehelp.pro/>

1. Addictive disorders, to include:

- Online assessments
- DUI/DWI classes
- Supportive counseling
- Codependency issues

I provide a supportive, nonjudgmental therapeutic relationship in which we review your pattern(s) of use and how it causes problems in your life. We will work on reduction and/or stopping completely in indicated. We will explore newer ways to cope with stress, boredom or the conflict that may increase your use.

If you require, or want we can have communication which may lead to a referral for additional services if appropriate. I have conducted such assessments with service members, adolescents as well as adults in a busy urban rehabilitation facility. Together we will appropriately assess your use and connect it to the difficulty you may have with family, work/school and/or the community.

If you are required to complete a curriculum i.e. DWI/DUI class for a court, probation/parole agency or are just interested in the psychological /physical aspects of alcohol and other drugs and what effect they have on you or a loved one. Please let me know and we will see if what we propose together will prove to satisfy the content that they want covered.

If someone close to you has a problem with alcohol or other drugs I can provide supportive counseling and we will explore local community resources to help you manage your relationship.

If this is a current concern for you there is no need to continue to feel uncomfortable. **Call, Instant message or Skype me NOW for FREE!**

2. Anger management:

- Counseling
- Classes
- Batters' treatment as well as Interpersonal Violence treatment

"Holding on to anger is like grasping hot coal with the intent of throwing it at someone else; you are the one who gets burnt." Buddha

If you find your anger having a negative impact on relationships at home, work or resulting in law enforcement intervention please call me. We can discuss more socially acceptable (and healthier) alternatives to your current experience. My hours, due to the nature of how I deliver my services are flexible and readily available to you.

If you are required to complete a program of instruction for a court or probation/parole agency please let me know and we will see if what we propose together will prove to satisfy the content that they want covered.

If this is a current concern for you there is no need to continue to feel uncomfortable. **Call, Instant message or Skype me NOW for FREE!**

3. Post Traumatic Stress Disorder:

If you have experienced events beyond your control which continue to cause you worry, concern and/or distress contact me so that we can work on symptom reduction through supportive counseling, cognitive restructuring (changing those persistent negative thoughts) and the exploration of additional therapies if warranted. Remember you are NOT alone and the Department of Veterans Affairs has

3. Post Traumatic Stress Disorder (cont):

endorsed the treatment of PTSD through the internet stating in essence that there is no difference in outcome from face to face therapy. They along with Tri-care, Medicare and Military One Source all endorse (and pay for) this form of care.

If this is a current concern for you there is no need to continue to feel uncomfortable. **Call, Instant message or Skype me NOW for FREE!**

4. Mood Disorders:

If Anxiety, Panic Attacks, Social Phobias, or Depression are a part of your life I can help. Together we will work out a plan to bring you additional peace of mind. We will review your stressors be they from your work, environment, or family I will help you to organize, reorganize and work on putting your stressors in the proper place in your life.

Please remember there is little that can be done about either yesterday or tomorrow and today ONLY has 24 hours some of which need to be dedicated to self-care (sleep, eating, and exercise). Let's find a way together to put your stressors in their proper compartment in life so they are managed effectively as opposed to becoming stagnant and no longer moving forward.

If this is a current concern for you there is no need to continue to feel uncomfortable. **Call, Instant message or Skype me NOW for FREE!**
